## FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 26 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road

The subscriber offers at private sale, READLAND, the well known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co, and containing about 350 acres, 250 of which are under cultivation, well fenced, and divided into convenient fields

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the state. It is bounded upon the West, to a large extent, by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and building, and the Lake abounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc

The Nashotah Theological Seminary is within 3 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn, 50X80, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable

## Pure Unadulterated BRANDIES.
DIRECT FROM THE GROWERS

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived. Not a tithe of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, at much advance of prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product a union of brandy growers in France has been accomplished, with the view of shipment to the United States

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the general management of A Rodson and the direction of a President, a Vice President, and a Committee of Inspection of eight members. The society is of numbers five hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society, the present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject, nevertheless, it may be worthy of observation that few features in this society possess a more striking claim to public attention than the fusion of interest effected between buyer and seller. Since all are shareholders it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn for shipment of the best qualities of brandies. For this purpose a clause introduced in the statues (article 40) renders it imperative that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the liability of an entire forfeiture of their shares

The undersigned, sole agents in the United States for the Central Society of Vineyard Proprietors of Cognac, would solicit the attention of merchants, hotel keepers, grocers and others to the vintages now on hand, confident that they will compare more than favorably with any article now in the market, and at prices far below the standard of even ordinary Cognacs

## INSURANCE OFFICES
**WISCONSIN**
**Home Insurance Office,**
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 30, 1855

INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings Household Furniture, Merchandize and other property, against

**LOSS OR DAMAGE BY FIRE.**

This is a new Company, organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks, but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the insuring public has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company

This Company commenced business with a capital of $40,000, and have a ready raised upwards of $50,000 of [illegible], and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner has had a tendency to shake the confidence of many of the more reliable and prominent insurance men in the [illegible] plan of insurance, and have induced them to believe that the only safe and reliable companies are those conducted on the Mutual principle

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk in Village, within a circle of 4 in rods diameter which of course will prevent very great loss at one fire.

Applications for insurance, respectfully solicited

## Highly Important to Farmers.
**The only Exclusive Farmers' Insurance Company in the West.**
## THE MADISON MUTUAL,
**Located at Madison, Wisconsin.**

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns live stock, &c from one to five years, at lower rates than most other responsible Companies

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses to pay but your own of the same class, and all will be on an equal footing

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected positively by LETTING THEM ALONE

Farmers, look to your own interest, and insure in a Farmers Company

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss, though doing a large and prosperous business,* which we believe to be without a parallel in the history of Insurance

The best of references given as to the responsibility of the Company.

## FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, READLAND, the well known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co, and containing about 250 acres, 155 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the state. It is bounded upon the West, to a large extent, by Pine Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and bathing, and the Lake abounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it is easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores and grist mills in the neighboring villages of Delafield, Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 3 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, frame Tenant House, a large Barn, 50X30, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

For further particulars apply to GEO R. M'LANE, on the premises, or by mail to Pine Lake P O Waukesha Co, Wis, or to D G. POWER,

Skillin, Visscher, Owen & Schell,

GENERAL NEWSPAPER ADVERTISING HOUSE,

*No 316 Broadway, New York*

## Pure Unadulterated BRANDIES.

DIRECT FROM THE GROWERS

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is that the direct source from which it is derived. None that is imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, at much advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of brandy growers in France has been accomplished, with the view of shipment to the United States.

The name of the *consolidation* is the Central Society of Vineyard Proprietors of Cognac, under the General management of a Redbon and the direction of a President, Vice President, and a Committee of Inspection of eight members. The society itself numbers five hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac who contribute, under certain by-laws, the entire growth of their vineyards to the general fund of the society, the present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject, nevertheless, it may be worthy of observation that few features in this society possess a more striking claim to public attention than *the fusion of interest* effected between buyer and seller. Since all are shareholders it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn for shipment of the best qualities of brandies. For this purpose a clause introduced in the statutes (article 40) renders it imperative that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the liability of an entire forfeiture *of their shares*.

The undersigned, sole agents in the United States for the Central Society of Vineyard Proprietors of Cognac, would solicit the attention of merchants, hotel keepers, grocers and others to the vintages now on hand confident that they will compare more than favorably with any article now in the market, and at prices far below the standard of even ordinary Cognacs.

## INSURANCE OFFICES

WISCONSIN

## Home Insurance Office,

**No. 6 Kneeland's Block.**

MILWAUKEE, WISCONSIN, MARCH 20, 1855

INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandise and other property, against

**LOSS OR DAMAGE BY FIRE.**

This is a new Company, organized the 20th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks, but to the present time the business has been confined to the Mutual system of insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.

This Company commenced business with a capital of $50,000, and have already issued upwards of 250 policies, and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbus, although it is believed that their business was conducted in the most proper manner has had a tendency to shake the confidence of many of the more reliable and prominent insurance men in the plan of insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk in Villages, within a circle of 4 in rods diameter which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

## Highly Important to Farmers.

**The only Exclusive Farmers' Insurance Company in the West.**

## THE MADISON MUTUAL,

**Located at Madison, Wisconsin.**

THIS COMPANY CONTINUES TO TAKE RISKS upon *Farm Property only*, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns live stock, &c from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses but your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is *rejected* entirely *by taking farm risks alone*.

Farmers, look to your own interest, and insure in a Farmers Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

### RAMBLES IN EUROPE—NO 18.

*Furnishing Free Baths for the Poor—Ancient Baths of Rome—Ruins of the Baths of Caracalla—the Poet Shelley—the Theatridium—the Splendor of the Ancient Exhibitions*

Rome March 28th, 1855

Among the refinements and luxuries of the ancients of all countries what contributed to health and a vigorous constitution was not forgotten—on the contrary every inducement was held out to all classes for the promotion of such objects particularly, and to cultivate a habit of frequently bathing Unhappily for our country the laws of health, to say nothing of its mental influence are not so well understood as they were long before the Christian Era It was undoubtedly understood then that in order to make the body vigorous and athletic frequent ablutions were necessary It is this that gives muscles, sinews and strength—with these follow daring, courage and endurance—qualities that belong emphatically to the genuine soldier It was equally thought necessary too for the benefit of the working classes and all the lower orders—hence government made provisions for public baths, which were free to all classes.—The ruins of these baths are seen now very prominent and form one of the most interesting features in this city of the past

There can be no doubt that as a sanitary measure alone, it saved the city millions of expense in reducing the number of paupers that filled poor-houses, infirmaries and hospitals Among the other reforms that Mayor Wood is making in the city of New York, let him recommend the establishment of a dozen free baths in the city for the poor and he would add I might almost say, an immortality to his name These should not be got up in such a cheap manner as would only have the appearance of exacting a task of those who frequented them, but they ought to be built in a style, and furnished in a manner, that would make them a luxury and a pleasure That city with its fine soft water, and an entire river of it already flowing there is the place to commence this reform so long needed and so justly due to the lower classes—and Mr Wood is the man to see it carried through At the present, if the laborer wishes the luxury of a bath he has to go perhaps a mile and then pay one half his day's earnings to procure one—or if unable to do this, which is generally the case he then looks to the sound and river that skirts his island city but he is liable to be fined and imprisoned if he enters these, and hence thousands live and die without ever taking a bath through their whole lives.

The most extensive baths now found amongst the ruins of Rome are those of Caracalla, Constantine, Diocletian and the baths of Titus—There are many others however, of no less note but whose ruins are less frequent The former were built by the Emperor whose name they bear commencing about A D 212 The area they occupy is a mile and upwards in circumference The centre of the building is supposed to contain the apartments for the nobility and higher orders and those nearer the walls for the plebians

There are discernible now large halls and innumerable small rooms adjoining them Some portions of the outer walls are quite entire, and appear one hundred and fifty feet high Also a number of the partition walls in which are plainly seen the places where winding stairs led up into the upper stories There is one pair of stairs I believe, that is still remaining but none of our party made an ascent and we did not see them There are also observable the places where the pipes were distributed throughout the building, all centering to the top, from which the same were supplied by a large aqueduct Some of the vaulted roofs still remain exhibiting evidence in paintings, &c, that these magnificent rooms were furnished with all the elegance that wealth could make them Among other things discovered are bas reliefs, cameos, inscriptions and statues—These are scattered through the various public museums and private palaces of Italy.

Of this wreck of what was once a magnificent pile of buildings, contributing alike to the health of the poor as to the voluptuousness of the rich, aside from its wall above described, a few rooms fitted up in a rude manner alone remain One of these is occupied by the old Custodian, who showed us over the gloomy place He is an old man and seems a counterpart to the ruin—When we rang the bell at the postern we saw him through the crevices in the great gate with his ponderous key, and he looked as if he had lived in its splendor and descended with its decline Among other things he showed us were some of the floors of the lower bathing rooms These are entirely of mosaic and beautifully variegated They look, no doubt, just as fresh as they did when they were finished by the artist These were discovered by excavations made a few years since. The rubbish removed from them was some twenty feet deep

Like the Coliseum all its marble columns, pilasters, cornices and ornaments have been spirited away for the building of private palaces and different orders of religious institutions The Jesuits, it is said, have sold large quantities of these materials and kept the funds themselves—When they came to take away the granite columns of the porticoes, it is related that the roofs fell in with so fearful a concussion that the inhabitants of Rome thought it was the shock of an earthquake

The grass growing luxuriantly, as with us in June, was waving in the air chequered by flowers of various hues Strange as it may appear there are a great many different varieties of flowers found in all these ruins, of the richest tint, and some are of a species unknown to botanists and can be found no where else It was at these ruins that the poet Shelly spent so much of his time while in Rome. Upon the summit he wrote one of his principal poems—Prometheus Unbound In the preface to it he says

> This poem was chiefly written upon the mountainous ruins of the baths of Caracalla, among the flowery glades and thickets of odoriferous blossoming trees, which are extended in ever-winding labyrinths upon its immense platforms and cliffy arches suspended in the air—The light blue sky of Rome, and the effect of the vigorous awakening spring in that divinest climate and the new life with which it drenches the spirits even to intoxication, were the inspiration of the drama"

Little thought he while thus engaged, that the hand that penned those lines must soon lie cold and motionless, and as he lifted his eyes towards Mount Aventinus, that a little way beyond would soon be his final resting place, and his weary soul would then be free

As there are no courts in these baths, it is conjectured that the only method of lighting them in the centre was by artificial light This light is much better to exhibit paintings and statuary than a dim natural light The imagination there cannot itself reach the reality, of thousands of rooms with vaulted ceilings, adorned with paintings and statuary in the voluptuous style of the age, blazing with perpetual light

A short distance from the baths of Caracalla and probably connected with them, are some remains of the Theatridium—an immense building for theatrical performers, games and other kinds of exhibitions The arrangements were on such a colossal scale, that its great area could be converted into a lake, where monsters of the deep would be introduced in propria persona, and where mimic battles between navies could be shown up before a Roman audience Gibbon, in his decline and fall of the Empire, gives a graphic account of this singular melo dramatic performance—but he fixes it at the Coliseum, whereas it was at this place, and connected as it was with the acqueduct, it was calculated and intended for such exhibitions

"That learned historian says—"It was doubtless a fine thing to bring and plant within the theatre, a great number of vast trees, with all branches in their full verdure, representing a great shady forest, disposed in excellent order, and the first day to throw into it a thousand ostriches, a thousand stags, a thousand boars, and a thousand fallow deer, to be killed and disposed of by the people, the next day to cause a hundred great lions, a hundred leopards and three hundred bears to be killed in his presence, and for the third day, to make three hundred pair of fencers to fight it out to the last, as the Emperor Probus did It was also very fine to see those vast amphitheatres all faced with marble without, curiously wrought with figures and statues, and the inside sparkling with rare decorations and enrichments—all the sides of this vast space filled and environed from the bottom to the top, with three or four score ranks of seats, all of marble also, and covered with cushions where a hundred thousand men might sit placed at their ease, and the place below, where the plays were played, to make it by art first open and cleave into chinks representing caves that vomited out the beasts designed for the spectacle—and then secondly to be overflowed with a profound sea full of sea monsters, and loaded with ships of war, to represent a naval battle—and thirdly to make it dry and even again for the comforts of the gladiators, and for the fourth scene, to have it strewed with vermilion and storax instead of sand, there to make a solemn feast for all that infinite number of people—the last act of only one day Sometimes they have made a high mountain advance itself, full of fruit trees and other flourishing sorts of woods sending down rivolets of water from the top, as from the mouth of a fountain—otherwhiles, a great ship was seen to come rolling in which opened and divided itself, and after having disgorged from the hold four or five hundred beasts for fight, closed again, and vanished without help At other times, from the floor of this place, they made spouts of perfumed water dart their streams upward, and so high as to besprinkle all that infinite multitude To defend themselves from the injuries of the weather, they had that vast place one while covered over with purple curtains of needlework and by and by with silk of another color which they could draw off or on in a moment, as they had a mind The network also that was set before the people to defend them from the violence of these turned out beasts, was also woven of gold"

Some of the other baths were larger and others smaller But space will not allow me to describe but one and by this the reader can easily imagine the others, where emperors outvied each other in the splendor and magnificence of the public and private buildings erected by them to satisfy their own ambition and to gratify the populace, who were then becoming effeminate and depraved

### An Answer to Mr. Yates.

Messrs Editors—In your yesterdays paper I perceive that I am rather violently assailed by Peter Yates On the 19th inst he published an article casting severe censure upon one of my officers, to which the officer replied

This, as I suppose, is the reason that my name is unceremoniously thrown in print I have always treated Mr Yates, as a gentleman (which he has heretofore reciprocated) and shall continue so to do As to the charge of taking double fees Mr Y certainly labors under a mistake I am not able to call to mind a case to which, under any pretence, he can allude In many cases I should be well satisfied to get one half my legal fees I have never courted a newspaper controversy with my friend Yates or any other man, and never shall, but have always regarded them as productive of little, if any good. There are numerous ways to settle personal difficulties which I would prefer to a newspaper controversy With this much I have done and shall not trouble your columns to reply again

S S CONOVER

*For the Sentinel*

*Messrs Editors*—In Peter Yates' epistle this morning he accuses us of skulking behind the names of "Officers of the Jail" He ought not to complain He named us and he's an *honorable* man, and of *high standing*, and certainly would not demean himself by calling folks wrong names. But our main reason, in so doing was that we did not wish to *hurt his feelings* by letting the public know that he was *gratuitously* overtaxing his mental powers to chastise parties *entirely beneath his notice*, and with whom he would not associate. He acknowledges our former statements to be correct in the main, but tries to slip out under Wasson Peter! that won't do. You can't pettifog out in that way it's of no use to dodge Our "silly lie" will bear too close inspection for your purposes.—Wasson is not a Jail Officer and if sent to you did not communicate the fact to us We knew nothing about it.

Now, Peter! it don't look well in you to say we "lie"—are "ignorant," "nameless," and have no characters—and you won't associate with us—and we used a "*venal pen*"—and then keep right on, and write a great mess of stuff about us, as if we were *men of consequence!* and, before you get through get mad at Sheriff Conover, just because we live with him, and tell big stories about him, and threaten to make him much trouble and go to law with him. If you are not careful people will think you are *naturally quarrelsome* No, no, Peter! You should not state your case beforehand, it's bad *practice*, and then, it may be, somebody will get disgusted and employ other counsel, just as Jones did and then you would feel so foolish, you know

Now, Peter, we won't trouble you any more We know you better than we did, and will ever hereafter regard the productions of your pen as *no slander!*

Officers of the Jail,
or
G H SCARRITT,
*(as suits you best.)*

### The Basswood Paper at Last!

The Albany *Evening Journal* of Monday comes to us printed on paper made of this new material It is as white as the average of ordinary printing paper, fine in texture and with a fine face The *Journal* says:

> To-day's edition of the Journal is printed on paper made entirely from basswood! We are indebted to Geo W Beardslee of this city, (the discoverer) for the requisite quantity of material for this purpose It is so nearly equal to the best paper used for news purposes, that any word of apology for whatever slight defects the Craft may discover in it, seems superfluous and unnecessary In justice, however to Mr Beardslee, it is proper to say that in producing the pulp he has been obliged to use our city water, which for several weeks past, owing to the spring thaws and rains, has not been as pure as water should be for such a purpose This is the cause of the perceptible yellow tinge. That it is not attributed to the stock used is abundantly demonstrated by the perfect whiteness of small parcels of paper made by filtered water
>
> Printers may also observe a slightly unusual harshness in the paper By later experiments Mr Beardslee has entirely obviated this objection He has produced specimens of almost every degree of flexibility—from blotting paper to paper of the harshest linen texture

### Plover and Grand Rapids, Portage Co

The Stevens Pt *Pinery* gives interesting sketches of these two thriving villages in Portage Co We copy some portion of the articles

Plover the County Seat of Portage Co is situated on Sec 22, of Town 23 N of Range 8 and the centre (north and south) of the county The site is a level plain of burr oak openings and affords most beautiful building lots

The farming lands in the immediate vicinity, especially to the south and east are of the choicest kind and are mostly settled with a first class population The county seat is permanently located at this village, a County Jail is being erected this season, to cost some $6000—the Court House being already up

Whole population, 500, buildings of all descriptions 211, dwellings 120 families 131, stores 5 taverns 3 saw mills in township 3—in the vicinity 1, blacksmith shops 2 carpenter shop 1 shoemaker shop 1 dist schools 7—select do, 1 Ministers 4, Lawyers 4, Physicians 2 name of post office Plover amount of lumber made in vicinity last year, 9 000,000

#### Grand Rapids.

It is located on the East bank of the Wisconsin in Sec 8, Town 23 N of Range 6 E and one of the most extensive water powers on the Wisconsin Besides its River thoroughfare, fine roads lead to and from it on both sides of the River

Whole population 1000 buildings of all descriptions 300 dwellings, 150 families 150; stores 5, taverns 4, groceries 3, bakeries 7 saw mills in vicinity, 6, blacksmith shops, 2—Carpenter shops, 8—shoemakers shop 1—wagon makers' shop 1—cabinet shop, 1—saloons 2—school, 3, churches, 2—Minister, 1—Lawyer 1—Post office 1, amount of lumber made in the vicinity per annum, 10 000 000—this amount was made from April 1st 1854 to April 1st 1855, and it is not an average amount, from the the fact that the mills were out of logs owing to the want of a rise in the river last season

Late from Sault Ste Marie.—The Lake Superior *Journal*, the first number this spring, contains many interesting items. Among them are the following

> "The break in the Canal was closed up on Friday evening 11th The water will be let in as soon as it is certain the frost is out"
>
> "The steamer Louisiana, the pioneer of the Collingwood and Lake Superior Line via Mackinaw, has arrived since the date of our outside, having grounded near the mouth of the river on Wednesday last, on her way to the Bruce Mines, C W, where she laid about fifty hours, till relieved by the Canal Tug Dart She got off uninjured"
>
> In a few days the St Mary's Canal is to be delivered over to the authorities of our State—The importance of this work, and the interest it has created in the public mind, call upon us to express our views of it
>
> We have examined it carefully—its stupendous locks, the largest in the world—its sloped stone walls and heavy banks, and we have no hesitation in publishing our admiration and firm faith in the permanency of this Canal"
>
> "The Northerner, on her last trip, brought up a company of Engineers bound for the new city of 'Superior,' situated at the extreme west of the Lake, to work upon the Railroad from that place to St. Paul The road, we understand, has been surveyed and is becoming a fixed fact in that region It is said to be one of the best routes, and that the road can be made more cheaply than any in the States It is built we believe, by public land granted by Congress Several gentlemen from Washington and New York were in the company, who intend taking up their residence in Superior"
>
> "Since the above the Illinois has brought a press and a 'Knight of the Scissors and Quill' for the same locality Success to them, say we"

### The Organ.

The Madison Argus & Democrat revels in a felicity of coolness now-a-days, that will be highly salubrious if it lasts till dog days Immediately after the result of the judicial election became known the organ began to be satisfied that Mr Cole would make a respectable Judge but regretted that the canvas had not been conducted with more decency on the part of his friends Now this *was* cool The most abusive vituperative and indecent opposition that was ever offered to any candidate for office in the State, was that of this same organ to the election of Mr Hood to the office of Circuit Judge—And generally speaking, this same organ is the most violent and unscrupulous of all the party presses of this State, and now it regrets the indecent manner in which Mr Cole's friends carried on the canvass

Mr Cole's friends said not a word against Mr Crawford on the score of ability or honesty but having a candidate of their own, of unquestioned and unquestionable ability and integrity and one with whose sentiments they agreed they naturally preferred him to one with whom neither they, nor the other members of the Supreme Bench could agree and this is the indecent manner of conducting a canvass which the organ regrets.

Ninety degrees cooler than this is the organ's late retrenchment and reform articles He figures up the State Tax for the coming year, at upwards of $350 000, and exclaims, *see* the fruits of Shanghai Legislation! Week after week he renews the charge It is in vain that he is reminded time and again, that more than half of this amount was fastened upon the State not by the last Legislature, but by its democratic predecessor He only replies 'Shanghai Legislation! $350 000!" He is called upon to designate the appropriation to which he objects, and again he replies 'Shanghai Legislation! $350,000!' People get impatient, and tell him that he himself is the recepient of the most barefaced theft in the list—that of the Documentary History and again he roars 'Shanghai Legislation! $350 000!!"

Some green one thinks he has found out a way to stop the insane clatter of the organ He gently whispers, "Mr Brown, my dear sir please to remember that the Senate was Democratic and that the Governor is the biggest Democrat alive hence two-thirds of this $350 000 must rest upon the democracy" Imagine the green one's astonishment when the same old answer comes back in thunder once more 'Shanghai Legislation! $350,000!'"—[Prairie du Chien Courier

### Awful Whirlwind!—Life and Property destroyed.

We learn from a gentleman who resides in the vicinity of O'Plain Station, on the Illinois and Wisconsin Railroad, that an awful whirlwind swept over that neighborhood on Tuesday afternoon last Persons at O'Plain witnessed about four o'clock, a spectacle like dense smoke rising in a high column from the earth at a distance of a few miles to the west The column extended upwards to the clouds when it became violently agitated with a whirling motion and commenced moving over the country towards the south-east It bore some resemblance to a "water-spout" but was more terrible in its appearance and movements Lightning flashed from the heavens and descending through the column, contrasting streaks of flame with its dark outlines and lending to the whole an aspect truly fearful

The column continued moving in a circular direction toward the south-east, through a segment of forty-five degrees when it suddenly broke in two and disappeared In a few minutes, at the point where the column went down it was observed to rise again this time apparently but a *few* feet in diameter It expanded as it went whirling upward, until nearly as large as before, and on reaching the clouds (to appearance) moved back again towards the north west over almost precisely the same path as before—When about half way back to its first starting point, the column disappeared and was no more seen

This strange looking phenomenon was a whirlwind On hearing from the neighborhood where it was first observed to rise (about twenty miles from this city) it was found to have been of the most terrible character—uprooting and destroying everything which happened to be in its path The house of Mr Page about a mile south of O'Plain station, was totally demolished *and four of the inmates were killed* Three others—the son and daughter-in-law of Mr Page, and one of their children—were badly, and our informant tells us, dangerously injured.

The persons killed were the wife of Mr Page senior and three of his grand children Two other children were hurt, making nine altogether who were either killed or injured by the calamity One of the children was found twenty rods from where the house stood, its body mutilated in a most shocking manner and stripped of every particle of clothing The house was a frame and stood upon a solid stone foundation, from which it was lifted bodily by the wind, and dashed to fragments

Farther west, the whirlwind demolished a large barn, and instantly killed a fine horse and a number of calves which were inside Fences were leveled, trees uprooted and twisted from their trunks by the awful force of the wind The destruction along the path which it travelled must have been very great We fear that more human lives have been lost The wind, it is said, was the most terrific which has ever been known in this region of country where whirlwinds have not been an uncommon occurrence.—[Chicago Tribune of yesterday

The New Collins Steamship.—We learn from a paragraph in the *Sunday Courier* that the contract for building the new steamer for the Collins line has been given to George Steers, of yacht *America* fame, who is now building the steam frigate *Niagara* at the Brooklyn Navy-Yard We are very glad to learn that Mr Steers has had [illegible] paid him, and we have no [illegible] he worthy this compliment [illegible] doubt that the new steamer will [illegible] reputation of her builder, and a credit to the nation.—[New York Times.

## CITY MATTERS.

### CIRCUIT COURT—May 24.

Judge Hubbell, Presiding

The case of the state vs William Jones on trial for arson, occupied the Court until late in the afternoon. The jury received the case at a quarter past 5 and retired to their room to deliberate

The next prisoner was an old man, grey haired a German, named Carl G Zastro, indicted and tried at a previous term of court for larceny in a dwelling house, the jury disagreeing, he having been in jail since that time The old man looked pale and wan, showing unmistakeably the effects of confinement a long time in a loathsome jail, in a building, in which an old country squire would not for a moment permit his hounds to be kennelled

A jury was called to try him and the case proceeded with District Attorney for state, John L Doran for defendant

In the case of the People *vs* William Jones, for arson, the jury came in at 6½ P M and stated that there was no possibility of their agreeing upon a verdict, and were discharged

Concert on Saturday.—Mr Collins, the celebrated Irish Comedian and Vocalist, will give one of his amusing and original entertainments at Young Hall, on Saturday next Mr Collins is a good actor, an excellent vocalist and a capital story teller, and all who go to hear him to-morrow night may make sure of a rare treat

Orphan's Fair.—A Fair and Festival for the benefit of St Æmilianus Orphan Asylum will be given at Young's Hall on Monday and Tuesday of next week Refreshments will be served during the day and evening, and Dinner provided from 1 to 4 o'clock each day

The Opera.—"Der Freyschuetz" was performed last evening, for the third time to a fair house, and to the entire satisfaction of the audience

### New Advertisements.

The Annual Fire Department Review is called by the Chief Engineer—so the Firemen will please attend to getting things in readiness for their gala day

Blair & Persons invite attention to their stock of French China, Water Coolers &c, &c.

Messrs G H Stewart & Co, of Beaver Dam, talk earnestly to our readers in the country, on the subject of the Wool and Woollen business Such factories as theirs are real blessings to the country

The reader will notice the advertisement of the Orphans' Fair to be held early next week at Young's Hall

Rooney announces another auction sale, and bargains to be made.

"Kill 'em!" "Kill 'em!" Well they ought to be killed

Caleb Wall sends us particular word as to his intentions in relation to the sale of a stock of goods next week, and we publish his letter, at *his* expense!

A model farm, fully described in the advertisement, is advertised by J M Crummey, and we do not think that he has said a word too much in its favor. It is truly a splendid farm and all its appointments are in keeping Some one will doubtless purchase it and come to live like a prince in our favored State

☞ The steamer *Traveller* arrived last evening from Chicago with 346 passengers, 10 horses and a fair load of freight

The boats do not seem to suffer any diminution of their business from the opening of the railroad Still, we understand that they intend to lower their fair still further

Another Schooner.—At Capt Jones' ship yard a large force is employed in getting out the timbers for a fine schooner, of about 300 tons register for Capt Humphrey and another whose name we did not learn

☞ The fine proportions of the vessel which Capt Barber is building for A Sweet & Co, Lighthouse contractors, attract general admiration, as she sits upon the stocks, nearly full rigged, painted, and nearly ready for launching

For Buffalo.—The fine and fast propellers *Forest Queen* and *Forest City* both leave our port at 9 o'clock this morning for Buffalo For passage &c, apply on board or to J Griffin Agent, on Huron street, three doors east of American Express Co's office

Schr D O, Dickinson.—This fine vessel, owned by D Newhall of this city, and commanded by John Waffle, arrived off the harbor on Wednesday night, having made the run, with a full cargo of seasoned lumber, in five and a half days from Buffalo Capt Waffle did not venture into harbor in the night, owing to the large number of lights from vessels near the mouth of the river making the beacon uncertain, but came up early yesterday morning

Quousque Tandem &c.—How long O! Aldermen of the First Ward, do you intend to keep Jackson Street, at the intersection of Mason in its present unsafe and unsightly condition? The first heavy rain will make a mud lake there and the first dark night may cost somebody a broken leg

Schr. Kitty Grant.—This vessel, belonging to S. B Grant, stranded last fall in Grand Traverse Bay, came in yesterday all right and tight, with a full cargo of lumber

☞ The staunch steamer *Niagara* will leave this port for Collingwood to-morrow (Saturday) evening.

Musical Festival at Cleveland.—A delegation from our Musical Society leave here this morning to attend a German Musical Festival at Cleveland, Ohio

Liberated.—The two colored men, arrested for a fight on the Pier the other day, were let out of jail yesterday, no complaint having been preferred against them

### Terrible Storm at Juneau.

Mr Editor,—Last evening, this village was visited by one of the most destructive tornadoes it has ever been our lot to witness About half past six o'clock a heavy cloud appeared in the north-west, accompanied by vivid flashes of lightning About an hour after hail began to pour down in great fury It seemed as though all the demons of heaven and earth had been there loose For about an hour and a half the roar of the hurricane drowned every other sound In all the town every window on the north and west sides were smashed, hardly a pane of glass was unscathed

The Juneau House lost about two hundred panes of glass, and the American nearly or quite as many Not a building escaped, all bear testimony to the fury of the storm Never has it been our fate to witness a scene, at once so terrible and sublime.

The new building erected by the County last season for fire-proof County Offices, was unroofed, and in its fall came within about six feet of striking a person who was at the time passing in a wagon.

Lynching at Weston.—A letter from a friend, written on board the Martha Jewett, May 18th, informs us that an Abolitionist named Phillips was tarred and feathered at Weston the day previous. He then went to Leavenworth, and on the 18th the people there were getting up an excitement in his case. Public opinion was divided in relation to this affair, freesoilers and pro-slavery men denouncing it. Philips, if we mistake not, was the man who put the pistol in M'Crea's hand with which he killed Clark, and this, it is presumed, was the primary cause of the excitement against him.—[St. Louis Republican

Important Enterprise.—Both branches of the California Legislature have passed a bill, which will probably be signed by the Governor, appropriating $100,000 to construct a wagon road from Sacramento to the eastern boundary of the State, by the way of Johnson's Cut Off We learn from the San Francisco Herald that this is the most rugged and difficult portion of the road from Salt Lake to Sacramento The Herald says, that as soon as the wagon road shall be constructed, some of the California stage owners and express men will start a line of stages to [illegible]—and so on to Salt Lake,

Carson Valley, —

☞ Blowes and King, the two men who were convicted of participating in the murder of Mr Nekey, at Cayuga, were executed at that place on Friday last, at 1 o'clock They met their fate with that stoicism which those who are forsaken by conscience and hardened by guilt are wont to manifest It will be remembered that they passed through this city the day after the murder, pursued by officers from Canada.—[Buffalo Evening Express

Got Off.—The steam tug *Follett* returned on Tuesday evening having succeeded in getting off the schooner *Liverpool* with trifling damage The underwriters North Western Insurance Co, of Philadelphia, A S Evans, Agent, will put the *Liverpool* on the dry docks and have her ready for business in a few days.—*Chicago Press*

The Saut boat came down yesterday, bringing the welcome tidings that the break in the canal had been repaired, and the water would be let in as soon as the frost was sufficiently out of the ground to render it safe.—*Det Adv 22d*

Vessels Passed Detroit.—May 21st—Barques Black Warrior and Norman Brigs Young America, Burns, Tuscarora Schooners Whitesquall, Garden City, Almira Australia.—*Dem and Eng*

Canal Business.—The amount of flour, wheat and corn passing East from the commencement of navigation up to noon to day, as shown by the books at the Weigh Lock was as follows

| | |
|---|---|
| Flour, bbls | 35 903 |
| Wheat bus | 73,000 |
| Corn, bus | 273,511 |

The amount passed last year, for the same time were:

| | |
|---|---|
| Flour, bbls | 93,395 |
| Wheat, bus | 141 413 |
| Corn, bus | 836 367 |

This shows a falling off in flour of nearly two thirds in wheat one half while the decline in corn is much more

The shipments of flour from Rochester this season during navigation, show an aggregate of 18,497 bbls or about one half of all that has passed the Weigh Lock up to the present time.—*Roch. Adv*

EXTRAORDINARY CURE EFFECTED.

On Saturday last, as we were passing along Market street our attention was directed to a young girl who was passing rapidly on the opposite side of the street We at once recognized her as a girl who not more than a year ago was a helpless cripple, her foot was turned nearly bottom side upward, and she hobbled along on the side of it and her ankle. It was really distressing at that time to see her walking, but now she is so nearly recovered as to be able to walk almost without limping We took the trouble to inquire how this remarkable improvement in her ankle had been brought about and that Dr Bragg had effected this remarkable cure with his Mustang Liniment —St Louis Daily Herald, June 1853 my22 d&w1w

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and this insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have Human existence must in consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives (although, through neglect to insure his *property*, he becomes bankrupt,) he supports his family; but at his *death*, dies also their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life

*If young*, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not diminished.

*Clergymen and others* who have a stated and regular income, *should* insure, well knowing that, at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should* insure

The farmer who has still a mortgage on his farm, should *insure*, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

## FOREIGN CORRESPONDENCE OF THE SENTINEL

### RAMBLES IN EUROPE—NO 18.

*Furnishing Free Baths for the Poor—Ancient Baths of Rome—Ruins of the Baths of Caracalla—the Poet Shelley—the Theatridium—the Splendor of the Ancient Exhibitions*

ROME March 28th, 1855

Among the refinements and luxuries of the ancients of all countries what contributed to health and a vigorous constitution was not forgotten—on the contrary every inducement was held out to all classes for the promotion of such objects particularly, and to cultivate a habit of frequently bathing Unhappily for our country the laws of health, to say nothing of its mental influence are not so well understood as they were long before the Christian Era It was undoubtedly understood then that in order to make the body vigorous and athletic frequent ablutions were necessary It is this that gives muscles, sinews and strength—with these follow daring, courage and endurance—qualities that belong emphatically to the genuine soldier It was equally thought necessary too for the benefit of the working classes and all the lower orders—hence government made provisions for public baths, which were free to all classes.—The ruins of these baths are seen now very prominent and form one of the most interesting features in this city of the past

There can be no doubt that as a sanitary measure alone it saved the city millions of expense in reducing the number of paupers that filled poorhouses, infirmaries and hospitals Among the other reforms that Mayor Wood is making in the city of New York, let him recommend the establishment of a dozen free baths in the city for the poor and he would add I might almost say, an immortality to his name These should not be got up in such a cheap manner as would only have the appearance of exciting a task of those who frequented them, but they ought to be built in a style, and furnished in a manner, that would make them a luxury and a pleasure That city with its fine soft water, and an entire river of it already flowing there is the place to commence this reform so long needed and so justly due to the lower classes—and Mr Wood is the man to see it carried through At the present, if the laborer wishes the luxury of a bath he has to go perhaps a mile and then pay one half his day's earnings to procure one—or if unable to do this, which is generally the case he then looks to the sound and river that skirts the island city But this is liable to be fined and imprisoned if he enters these, and hence thousands live and die without ever taking a bath through their whole lives.

The most extensive baths now found amongst the ruins of Rome are those of Caracalla, Constantine, Diocletian and the baths of Titus—There are many others however, of no less note but whose ruins are less frequent The former were built by the Emperor whose name they bear commencing about A D 212 The area they occupy is a mile and upwards in circumference The centre of the building is supposed to contain the apartments for the nobility and higher orders and those nearer the walls for the plebians

There are discernible now large halls and innumerable small rooms adjoining them Some portions of the outer walls are quite entire, and appear one hundred and fifty feet high Also a number of the partition walls in which are plainly seen the places where winding stairs led up into the upper stories There is one pair of stairs I believe, that is still remaining but none of our party made an ascent and we did not see them There are also observable the places where the pipes were distributed throughout the building all centering to the top, from which the same were supplied by a large aqueduct Some of the vaulted roofs still remain exhibiting evidence in paintings, &c, that these magnificent rooms were furnished with all the elegance that wealth could make them Among other things discovered are bas reliefs, cameos, inscriptions and statues — These are scattered through the various public museums and private palaces of Italy.

Of this wreck of what was once a magnificent pile of buildings, contributing alike to the health of the poor as to the voluptuousness of the rich aside from its wall above described, a few rooms fitted up in a rude manner alone remain One of these is occupied by the old Custodian, who showed us over the gloomy place He is an old man and seems a counterpart to the ruin — When we rang the bell at the postern we saw him through the crevices in the great gate with his ponderous key, and he looked as if he had lived in its splendor and descended with its decline Among other things he showed us were some of the floors of the lower bathing rooms These are entirely of mosaic and beautifully variegated They look, no doubt, just as fresh as they did when they were finished by the artist These were discovered by excavations made a few years since. The rubbish removed from them was some twenty feet deep

Like the Coliseum all its marble columns, pilasters, cornices and ornaments have been spirited away for the building of private palaces and different orders of religious institutions The Jesuits, it is said, have sold large quantities of these materials and kept the funds themselves — When they came to take away the granite columns of the porticoes, it is related that the roofs fell in with so fearful a concussion that the inhabitants of Rome thought it was the shock of an earthquake

The grass growing luxuriantly, as with us in June, was waving in the air chequered by flowers of various hues Strange as it may appear there are a great many different varieties of flowers to find in all these ruins, of the richest tint, and some are of a species unknown to botanists and can be found no where else It was at these ruins that the poet Shelly spent so much of his time while in Rome. Upon the summit he wrote one of his principal poems—Prometheus Unbound In the preface to it he says

> This poem was chiefly written upon the mountainous ruins of the baths of Caracalla, among the flowery glades and thickets of odoriferous blossoming trees, which are extended in ever-winding labyrinths upon its immense platforms and cliffy arches suspended in the air—The light blue sky of Rome, and the effect of the vigorous awakening spring in that divinest climate and the new life with which it drenches the spirits even to intoxication, were the inspiration of the drama"

Little thought he while thus engaged, that the hand that penned those lines must soon lie cold and motionless, and as he lifted his eyes towards Mount Aventinus, that a little way beyond would soon be his final resting place, and his weary soul would then be free

As there are no courts in these baths, it is conjectured that the only method of lighting them in the centre was by artificial light This light is much better to exhibit paintings and statuary than a dim natural light The imagination there cannot itself reach the reality, of thousands of rooms with vaulted ceilings, adorned with paintings and statuary in the voluptuous style of the age, blazing with perpetual light

A short distance from the baths of Caracalla and probably connected with them, are some remains of the Theatridium—an immense building for theatrical performers, games and other kinds of exhibitions The arrangements were on such a colossal scale, that its great area could be converted into a lake, where monsters of the deep would be introduced in propria persona, and where mimic battles between navies could be shown up before a Roman audience Gibbon, in his decline and fall of the Empire, gives a graphic account of this singular melo dramatic performance—but he fixes it at the Coliseum, whereas it was at this place, and connected as it was with the acqueduct, it was calculated and intended for such exhibitions

That learned historian says—" It was doubtless a fine thing to bring and plant within the theatre, a great number of vast trees, with all branches in their full verdure, representing a great shady forest, disposed in excellent order, and the first day to throw into it a thousand ostriches, a thousand stags, a thousand boars, and a thousand fallow deer, to be killed and disposed of by the people, the next day to cause a hundred great lions, a hundred leopards and three hundred bears to be killed in his presence, and for the third day, to make three hundred pair of fencers to fight it out to the last, as the Emperor Probus did It was also very fine to see those vast amphitheatres all faced with marble without, curiously wrought with figures and statues, and the inside sparkling with rare decorations and enrichments—all the sides of this vast space filled and environed from the bottom to the top, with three or four score ranks of seats, all of marble also, and covered with cushions where a hundred thousand men might sit placed at their ease, and the place below, where the plays were played, to make it by art first open and cleave into chinks representing caves that vomited out the beasts designed for the spectacle—and then secondly to be overflowed with a profound sea full of sea monsters, and loaded with ships of war, to represent a naval battle—and thirdly to make it dry and even again for the comforts of the gladiators, and for the fourth scene, to have it strewed with vermillion and storax instead of sand, there to make a solemn feast for all that infinite number of people—the last act of only one day Sometimes they have made a high mountain advance itself, full of fruit trees and other flourishing sorts of woods sending down rivulets of water from the top, as from the mouth of a fountain—otherwhiles, a great ship was seen to come rolling in which opened and divided itself, and after having disgorged from the hold four or five hundred beasts for fight, closed again, and vanished without help At other times, from the floor of this place, they made spouts of perfumed water dart their streams upward, and so high as to besprinkle all that infinite multitude To defend them selves from the injuries of the weather, they had that vast place one while covered over with purple curtains of needlework and by and by with silk of another color which they could draw off or on in a moment, as they had a mind The network also that was set before the people to defend them from the violence of these turned out beasts, was also woven of gold"

Some of the other baths were larger and others smaller But space will not allow me to describe but one and by this the reader can easily imagine the others, where emperors outvied each other in the splendor and magnificence of the public and private buildings erected by them to satisfy their own ambition and to gratify the populace, who were then becoming effeminate and depraved F.

### An Answer to Mr. Yates.

MESSRS EDITORS —In your yesterdays paper I perceive that I am rather violently assailed by PETER YATES On the 19th inst he published an article casting severe censure upon one of my officers, to which the officer replied

This, as I suppose, is the reason that my name is unceremoniously thrown in print I have always treated Mr Yates, as a gentleman (which he has heretofore reciprocated) and shall continue so to do As to the charge of taking double fees Mr Y certainly labors under a mistake I am not able to call to mind a case to which, under any pretence, he can allude In many cases I should be well satisfied to get one half my legal fees I have never courted a newspaper controversy with my friend Yates or any other man, and never shall, but have always regarded them as productive of little, if any good. There are numerous ways to settle personal difficulties which I would prefer to a newspaper controversy With this much I have done and shall not trouble your columns to reply again

S S CONOVER

*For the Sentinel*

*Messrs Editors* —In Peter Yates' epistle this morning he accuses us of skulking behind the names of Officers of the Jail" He ought not to complain He named us and he's an *honorable* man, and of *high standing*, and certainly would not demean himself by calling folks wrong names. But our main reason, in so doing was that we did not wish to *hurt his feelings* by letting the public know that he was *gratuitously* overtaxing his mental powers to chastise parties *entirely beneath his notice*, and with whom he would not associate. He acknowledges our former statements to be correct in the main, but tries to slip out under Wasson Peter! that won't do. You can't petifog out in that way it's of no use to dodge Our "silly lie" will bear too close inspection for your purposes.—Wasson is not a Jail Officer and if sent to you did not communicate the fact to us We knew nothing about it.

Now, Peter! it don't look well in you to say we "lie"—are "ignorant," "nameless," and have no characters—and you won't associate with us—and we used a "*venal pen*"—and then keep right on, and write a great mess of stuff about us, as if we were *men of consequence!* and, before you get through get mad at Sheriff Conover, just because we live with him, and tell big stories about him, and threaten to make him much trouble and go to law with him. If you are not careful people will think you are *naturally quarrelsome* No, no, Peter! You should not state your case beforehand, it's bad *practice*, and then, it may be, somebody will get disgusted and employ other counsel, just as Jones did and then you would feel so foolish, you know

Now, Peter, we won't trouble you any more We know you better than we did, and will ever hereafter regard the productions of your pen as *no slander!*

OFFICERS OF THE JAIL,

### The Basswood Paper at Last!

The Albany *Evening Journal* of Monday comes to us printed on paper made of this new material It is as white as the average of ordinary printing paper, fine in texture and with a fine face The *Journal* says:

> To-day's edition of the Journal is printed on paper made entirely from basswood! We are indebted to Geo W Beardslee of this city, (the discoverer) for the requisite quantity of material for this purpose It is so nearly equal to the best paper used for news purposes, that any word of apology for whatever slight defects the Craft may discover in it, seems superfluous and unnecessary In justice, however to Mr Beardslee, it is proper to say that in producing the pulp he has been obliged to use our city water, which for several weeks past, owing to the spring thaws and rains, has not been as pure as water should be for such a purpose This is the cause of the perceptible yellow tinge. That it is not attributed to the stock used is abundantly demonstrated by the perfect whiteness of small parcels of paper made by filtered water
>
> Printers may also observe a slightly unusual harshness in the paper By later experiments Mr Beardslee has entirely obviated this objection He has produced specimens of almost every degree of flexibility—from blotting paper to paper of the harshest linen texture

### Plover and Grand Rapids, Portage Co

The Stevens Pt *Pinery* gives interesting sketches of these two "thriving villages in Portage Co We copy some portion of the articles

Plover the County Seat of Portage Co is situated on Sec 22, of Town 23 N of Range 8 — and the centre (north and south) of the county The site is a level plain of burr oak openings and affords most beautiful building lots

The farming lands in the immediate vicinity, especially to the south and east are of the choicest kind and are mostly settled with a first class population The county seat is permanently located at this village, a County Jail is being erected this season, to cost some $6000—the Court House being already up

Whole population, 500, buildings of all descriptions 211, dwellings 120 families 1[illegible]1, stores 5 taverns 3 saw mills in township 3—in the vicinity 1, blacksmith shops 2 carpenter shop 1 shoemaker shop 1 dist schools 7—select do, 1 Ministers 4, Lawyers 4, Physicians 2 name of post office Plover amount of lumber made in vicinity last year, 3 000,000

It is located on the East bank of the Wisconsin in Sec 8, Town 23 N of Range 6 E and one of the most extensive water powers on the Wisconsin Besides its River thoroughfare, five roads lead to and from it on both sides of the River

LATE FROM SAULT STE MARIE —The Lake Superior *Journal*, the first number this spring, contains many interesting items. Among them are the following

"The break in the Canal was closed up on Friday evening 11th The water will be let in as soon as it is certain the frost is out"

"The steamer Louisiana, the pioneer of the Collingwood and Lake Superior Line via Mackinaw, has arrived since the date of our others, having grounded near the mouth of the river on Wednesday last, on her way to the Bruce Mines, C W, where she laid about fifty hours, till relieved by the Canal Tug Dart She got off uninjured"

"In a few days the St Mary's Canal is to be delivered over to the authorities of our State — The importance of this work, and the interest it has created in the public mind, call upon us to express our views of it

We have examined it carefully—its stupendous locks, the largest in the world—its sloped stone walls and heavy banks, and we have no hesitation in publishing our admiration and firm faith in the permanency of this Canal"

"The Northerner, on her last trip, brought up a company of Engineers bound for the new city of Superior, situated at the extreme west of the Lake, to work upon the Railroad from that place to St Paul The road, we understand, has been surveyed and is becoming a fixed fact in that region It is said to be one of the best routes, and that the road can be made more cheaply than any in the States It is built we believe, by public land granted by Congress Several gentlemen from Washington and New York were in the company, who intend taking up their residence in Superior"

"Since the above the Illinois has brought a press and a 'Knight of the Scissors and Quill' for the same locality Success to them, say we"

### The Organ.

The Madison Argus & Democrat revels in a felicity of coolness now-a-days, that will be highly salubrious if it lasts till dog days Immediately after the result of the judicial election became known the organ began to be satisfied that Mr Cole would make a respectable Judge but regretted that the canvass had not been conducted with more decency on the part of his friends Now this *was* cool The most abusive vituperative and indecent opposition that was ever offered to any candidate for office in this State, was that of this same organ to the election of Mr Hood to the office of Circuit Judge — And generally speaking, this same organ is the most violent and unscrupulous of all the party presses of this State, and now it regrets the indecent manner in which Mr Cole's friends carried on the canvass

Mr Cole's friends said not a word against Mr Crawford on the score of ability or honesty but having a candidate of their own, of unquestioned and unquestionable ability and integrity and one with whose sentiments they agreed they naturally preferred him to one with whom neither they, nor the other members of the Supreme Bench could agree and this is the indecent manner of conducting a canvass which the organ regrets.

Ninety degrees cooler than this is the organ's late retrenchment and reform articles He figures up the State Tax for the coming year, at upwards of $350 000, and exclaims, *see* the fruits of Shanghai Legislation! Week after week he renews the charge It is in vain that he is reminded time and again, that more than half of this amount was fastened upon the State not by the last Legislature, but by its democratic predecessor He only replies 'Shanghai Legislation $350 000!" He is called upon to designate the appropriation to which he objects, and again he replies 'Shanghai Legislation! $350,000!' People get impatient, and tell him that he himself is the recipient of the most barefaced theft in the list—that of the Documentary History and again he roars 'Shanghai Legislation! $350-000!'"

Some green one thinks he has found out a way to stop the insane clatter of the organ He gently whispers, "Mr Brown, my dear sir please to remember that the Senate was Democratic and that the Governor is the biggest Democrat alive hence two-thirds of this $350 000 must rest upon the democracy" Imagine the green one's astonishment when the same old answer comes back in thunder once more 'Shanghai Legislation! $350,000!'"—[Prairie du Chien Courier

### Awful Whirlwind!—Life and Property destroyed.

We learn from a gentleman who resides in the vicinity of O'Plain Station, on the Illinois and Wisconsin Railroad, that an awful whirlwind swept over that neighborhood on Tuesday afternoon last. Persons at O'Plain witnessed about four o'clock, a spectacle like dense smoke rising in a high column from the earth at a distance of a few miles to the west The column extended upwards to the clouds when it became violently agitated with a whirling motion and commenced moving over the country towards the south-east. It bore some resemblance to a water-spout" but was more terrible in its appearance and movements Lightning flashed from the heavens and descending through the column, contrasting streaks of flame with its dark outlines and lending to the whole an aspect truly fearful

The column continued moving in a circular direction toward the south-east, through a segment of *forty-five* degrees when it suddenly broke in two and disappeared In a few minutes, at the point where the column went down it was observed to rise again this time apparently but a few feet in diameter It expanded as it went whirling upward, until nearly as large as before, and on reaching the clouds (to appearance) moved back again towards the north west over almost precisely the same path as before — When about half way back to its first starting point, the column disappeared and was no more seen

This strange looking phenomenon was a whirlwind On hearing from the neighborhood where it was first observed to rise (about twenty miles from this city) it was found to have been of the most terrible character—uprooting and destroying everything which happened to be in its path The house of Mr Page about a mile south of O'Plain station, was totally demolished *and four of the inmates were killed* Three others—the son and daughter-in-law of Mr Page, and one of their children—were badly, and our informant tells us, dangerously injured.

The persons killed were the wife of Mr Page senior and three of his grand children Two other children were hurt, making nine altogether who were either killed or injured by the calamity One of the children was found twenty rods from where the house stood, its body mutilated in a most shocking manner and stripped of every particle of clothing The house was a frame and stood upon a solid stone foundation, from which it was lifted bodily by the wind, and dashed to fragments

Farther west, the whirlwind demolished a large barn, and instantly killed a fine horse and a number of calves which were inside Fences were leveled, trees uprooted and twisted from their trunks by the awful force of the wind The destruction along the path which it travelled must have been very great We fear that more human lives have been lost The wind, it is said, was the most terrific which has ever been known in this region of country where whirlwinds have not been an uncommon occurrence —[Chicago Tribune of yesterday

THE NEW COLLINS STEAMSHIP —We learn from a paragraph in the *Sunday Courier* that the contract for building the new steamer for the Collins line has been given to George Steers, of yacht *America* fame, who is now building the steam frigate *Niagara* at the Brooklyn Navy-Yard We are very glad to learn that Mr Steers has had [illegible] paid him, and we have no [illegible] be worthy the [illegible] this compliment [illegible] doubt that the new steamer will [illegible] reputation of her builder, and a credit to the nation.—[New York Times.

## CITY MATTERS.

### CIRCUIT COURT---May 21.

JUDGE HUBBELL, PRESIDING

The case of the state vs William Jones on trial for arson, occupied the Court until late in the afternoon. The jury received the case at a quarter past 5 and retired to their room to deliberate

The next prisoner was an old man, grey haired a German, named Carl G Zastro, indicted and tried at a previous term of court for larceny in a dwelling house, the jury disagreeing, he having been in jail since that time The old man looked pale and wan, showing unmistakeably the effects of confinement a long time in a loathsome jail, in a building, in which an old country squire would not for a moment permit his hounds to be kennelled

A jury was called to try him and the case proceeded with District Attorney for state, John L Doran for defendant

In the case of the People *vs* William Jones, for arson, the jury came in at 6½ P M and stated that there was no possibility of their agreeing upon a verdict, and were discharged

QUOUSQUE TANDEM &c —How long O! Aldermen of the First Ward, do you intend to keep Jackson Street, [at the intersection of Mason] in its present unsafe and unsightly condition? The first heavy rain will make a mud lake there and the first dark night may cost somebody a broken leg

### Terrible Storm at Juneau.

MR EDITOR,—Last evening, this village was visited by one of the most destructive tornadoes it has ever been our lot to witness About half past six o'clock a heavy cloud appeared in the north-west, accompanied by vivid flashes of lightning About an hour after hail began to pour down in great fury It seemed as though all the demons of heaven and earth had been there loose For about an hour and a half the roar of the hurricane drowned every other sound In all the town every window on the north and west sides were smashed, hardly a pane of glass was unscathed

The Juneau House lost about two hundred panes of glass, and the American nearly or quite as many Not a building escaped, all bear testimony to the fury of the storm Never has it been our fate to witness a scene, at once so terrible and sublime.

The new building erected by the County last season for fire-proof County Offices, was unroofed, and in its fall came within about six feet of striking a person who was at the time passing in a wagon.

LYNCHING AT WESTON —A letter from a friend, written on board the Martha Jewett, May 18th, informs us that an Abolitionist named PHILLIPS was tarred and feathered at Weston the day previous. He then went to Leavenworth, and on the 18th the people there were getting up an excitement in his case. Public opinion was divided in relation to this affair, freesoilers and proslavery men denouncing it. Phillips, if we mistake not, was the man who put the pistol in M'CREA's hand with which he killed CLARK, and this, it is presumed, was the primary cause of the excitement against him.—[St. Louis Republican

IMPORTANT ENTERPRISE.—Both branches of the California Legislature have passed a bill, which will probably be signed by the Governor, appropriating $100,000 to construct a wagon road from Sacramento to the eastern boundary of the State, by the way of Johnson's Cut Off We learn from the San Francisco Herald that this is the most rugged and difficult portion of the road from Salt Lake to Sacramento The Herald says, that as soon as the 'wagon road' shall be constructed, some of the California stage owners and express men will start a line of stages to [illegible] — and so on to Salt Lake,

Carson Valley, ...

☞ Blowers and King, the two men who were convicted of participating in the murder of Mr NEKET, at Cayuga, were executed at that place on Friday last, at 1 o'clock They met their fate with that stoicism which those who are forsaken by conscience and hardened by guilt are wont to manifest It will be remembered that they passed through this city the day after the murder, pursued by officers from Canada —[Buffalo Evening Express

CANAL BUSINESS —The amount of flour, wheat and corn passing East from the commencement of navigation up to noon to day, as shown by the books at the Weigh Lock was as follows

| | |
|---|---|
| Flour, bbls | 35 903 |
| Wheat bus | 73,000 |
| Corn, bus | 273,511 |

The amount passed last year, for the same time were:

| | |
|---|---|

EXTRAORDINARY CURE EFFECTED.

On Saturday last, as we were passing along Market street our attention was directed to a young girl who was passing rapidly on the opposite side of the street We at once recognized her as a girl who not more than a year ago was a helpless cripple, her foot was turned nearly bottom side upward, and she hobbled along on the side of it and her ankle. It was really distressing at that time to see her walking, but now she is so nearly recovered as to be able to walk almost without limping We took the trouble to inquire how this remarkable improvement in her ankle had been brought about and that Dr Bragg had effected this remarkable cure with his Mustang Liniment —*St Louis Daily Herald, June 1853* my22 d&clw

*Guarantee Fund, $100,000, Deposited with the Comptroller of the State of New York*

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Insurance is desirable or not, and at what Office it is their interest to insure.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible, and Life Insurance, while it in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have Human existence must on consideration, enjoy a much higher estimate than worldly property.

While the representative of a family lives (although, through neglect to insure his property, he becomes bankrupt,) he supports his family; but at his *death*, dissolve their means of support, unless he has saved them from want by an insurance on his life, which may be done by the payment of a small annual premium, the payment of which has not diminished his own worldly comfort during life

If young, the annual payment will be light, and if insured with profits, the policy will be constantly growing more valuable, though the premium is not increased.

Clergymen and others who have a stated and regular income, *should insure*, well knowing that, at their death their families may be left destitute

Men engaged in mercantile or manufacturing pursuits ever varying and uncertain in their issues, *should insure*

The farmer who has still a mortgage on his farm, should insure, at least to the extent of it, thereby shielding his family to pay off the debt in case of his death

### WOOL! WOOL!

WANTED AT THE FARMERS' FACTORY, IN Beaver Dam, in exchange for Cash and Cloth.

Two years ago we built our Woollen Factory, expressly to accommodate the Farmers of Wisconsin as well as others who wish to use Woollen Cloths, Sattinetts, Flannels, &c. Knowing how degenerated the Cloths sent to this market had become, we believed the public would sustain us in making a pure all Wool hard twist serviceable Cloth, and we are happy to announce we are not mistaken, for on the trial of actual service of our Cloths, the public have required of us more than we could perform, but in order that the farmers and "the rest of mankind" may find one place where they can carry their Wool or cash, and not get Cloth made of very little Wool and much Cotton, old woollen rags, shearings, &c., &c., in return we have greatly enlarged our establishment, and shall strive to manufacture still more serviceable cloth, as we are fully convinced it is more profitable to make good cloth than poor.

Mr STEWART has had more than twenty year's experience in manufacturing Cloth for home market, and gives his whole personal attention to his business, and will receive Wool to manufacture into Cassimeres, Tweeds, Sattinets, Flannels two yards wide if requested for sheets, either on shares or by the yard, on favorable terms. We have TWO SETTS CUSTOM CARDING MACHINES for carding rolls which we can do right on short notice. CLOTH can be dressed at any season of the year in a style which common shops cannot attain to.

We have a first rate assortment of Cloths now on hand for sale at wholesale or retail for wool or cash.

We will send full information to any one wishing for the same and writing us to that effect.

Bring on your wool early and get your Cloth in season. G H STEWART & CO.

### FROM CALIFORNIA.

New York, May 24th

The *George Law* brings California dates to April 15th. An election in Chili resulted in a majority for the Government.

The Sacramento Valley R. R. was rapidly progressing. Very valuable coal mines had been discovered in Lower California inside the Gulf.

Gov. Bigler was spoken of for the Senatorship. From Washington Territory it is stated that the treaties with various tribes of Indians were making favorable progress.

### The Tornado.

Chicago, May 24th—7 P. M.

Later accounts from the scene of the tornado still have an incredible and munchausen-like appearance. It is expected that there is more loss of life yet to be discovered.

There have doubtless been exaggerations in the reports brought to this city, but it is impossible to learn the exact extent of the damage.

### ALBANY MARKET

Albany, 24—7 P M

Flour—Sales 1700 bbls 10,25a10,50 for common to straight state—10 37a10 62 common to good western. Corn lower—early in day 1,10½ for western mixed. Subsequently sales 1,09a 1,10 and 1 08 closing heavy. Sales 35 000 bus western mixed for all July, at 1,02a1,02½

### NEW YORK MARKET.

Sales to-day 7500 bbls at 10.37 a10,62 for common to choice state and mixed to fancy western including Wis. Mich. Ohio and Canadian, 11,25a13 for extra Genessee. Market closing buoyant with but little if any parcels in order to be had at the price. Included are 2500 bbls common state at $9, part delivered the last 15 days and remainder in all July. Closing with more buyers than sellers at these figures. An advance was expected by the America, but the fact that there has been no advance in Liverpool does not seem to have the least effect here. After the news by the America was published no one showed the least anxiety to realize.

Grain—supply of wheat appears to have been suddenly cut off as there was scarcely a sample exhibited to-day. Parcels would have brought a shade better prices—a sale of 700 bush strictly prime Genesee was made at 2,80.

Rye—no sales of importance small transactions at 1,60a1,67

Corn—receipts of western mixed large—the greater portion not in good order, consequently shipping will not touch it. ## PATENT MEDICINES.

### PROCLAMATION To the Sick.

BRING hither the poor, the halt, the lame and the blind, if you would have them healed of their maladies. We boldly and fearlessly assert that the Mustang Liniment will positively cure rheumatism. Let every one who is afflicted with that most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the [illegible]. Thousands have tried it—and all were cured. Bruises, sprains, or [illegible] eruptions fade away as if touched with the magician's wand. Its application to Burns or Scalds acts like "oil on troubled waters." The tempest of pain and agony is soothed, and the patient is lulled to quiet and peaceful slumbers. There is a balm for every wound, and that balm is the Mustang Liniment. Every store that sells medicine keeps it for sale. "Hold your horses," and if they are [illegible], galled or sprained, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR Rheumatism, Scald Head, Gout, Neuralgia, Caked breast, Stiff Joints, Lumbago, Sore Nipples, Bruises, Sores, Sore Shins, Cuts, Salt Rheum, Burns, Chafes, [illegible], Scalds, Galls, Piles, Ulcers, Spavin, Sprains, Ring-Bone, Sweeny, Foul Evil, Scratches, sores, Hard Lumps or Tumors, and all kinds of

Pains or Inflamation in Man or Beast.

RELIABLE EVIDENCE.

[illegible], Mo., January 17, 1[illegible]

Messrs A G BRAGG & Co.,

Dear Sirs, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days he was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D B MILLER, County Judge

RUSSELL COUNTY, Ala Feb 1, 1[illegible]

For the benefit of the afflicted, I feel it my duty to make publicly the remarkable cure that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as its condition might prevent mortification. To the astonishment of the doctor and myself, her pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned, the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILLIPS

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as in erysipelas, pains or lameness in the back, side or joints, than rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over [illegible] million of bottles have been used and never heard a complaint against it where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts to induce those to try it who may never have had an occasion to do so. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES.—It is put up in bottles of all sizes and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

### RHODES' FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats and other forms of disease which have a common origin in Marsh or Miasma. This subtle atmospheric poison, which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to the newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA

It will entirely protect any resident or traveler, even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

### WOOL! WOOL!

WANTED AT THE FARMERS' FACTORY, IN Beaver Dam, in exchange for Cash and Cloth.

Two years ago we built our Woollen Factory, expressly to accommodate the Farmers of Wisconsin as well as others who wish to use Woollen Cloths, Satinetts, Flannels, &c. Knowing how degenerated the Cloths sent to this market had become, we believed the public would sustain us in making a pure all Wool hard twist serviceable Cloth, and we are happy to announce we are not mistaken, for on the trial of actual service of our Cloths, the public have required of us more than we could perform, but in order that the farmers and "the rest of mankind" may find one place where they can carry their Wool or cash, and not get Cloth made of very little Wool and much Cotton, old woollen rags, shearings, &c., &c., in return we have greatly enlarged our establishment, and shall strive to manufacture still more serviceable cloth, as we are fully convinced it is more profitable to make good cloth than poor.

Mr STEWART has had more than twenty years' experience in manufacturing Cloth for home market, and gives his whole personal attention to his business, and will receive Wool to manufacture into Cassimeres, Tweeds, Sattinets, Flannels two yards wide if requested for sheets, either on shares or by the yard, on favorable terms. We have TWO SETTS CUSTOM CARDING MACHINES for carding rolls which we can do right on short notice. CLOTH can be dressed at any season of the year in a style which common shops cannot attain to.

We have a first rate assortment of Cloths now on hand for sale at wholesale or retail for wool or cash.

We will send full information to any one wishing for the same and writing us to that effect.

☞ Bring on your wool early and get your Cloth in season. G H STEWART & CO.

[SPECIAL DESPATCH TO THE SENTINEL]

America arrived.—Flour and wheat unchanged—Corn firm—Consols lower. Affairs before Sebastopol unchanged—no prospect of an assault. Several heavy failures in Liverpool. F. A. A

### Later from California—More Gold.

[SPECIAL DESPATCH TO THE SENTINEL]

New York, May 24.

Another arrival from California with dates to the 1st instant, and a million and a quarter in gold. Trade more active—markets unchanged—mining prosperous—political news unimportant. F. A. A

### Virginia Election.

(PRIVATE DESPATCH TO THE SENTINEL)

New York, May 24

Despatches from Richmond and other portions of Virginia report the Know-Nothings largely ahead. F. A. A

### Evening Despatch.

[EXCLUSIVELY FOR THE SENTINEL]

Charleston, S C, May 22

U S steamer *Corwin* has arrived here with Key West dates to the 19th. The steamer *San Jacinto* sailed for Havana on the 19th. The *Jamestown, Cyane, Princeton and Fulton,* were at Key West. Health of the squadron good.

### Important Arrest.

New York, May 21

A gang of 12 persons suspected to be extensively connected with certain burglaries, were arrested here last night. A large amount of counterfeit apparatus and burglars' implements were found in their possession.

### FROM CALIFORNIA.

New York, May 24th

The *George Law* brings California dates to April 15th. An election in Chili resulted in a majority for the Government.

The Sacramento Valley R. R. was rapidly progressing. Very valuable coal mines had been discovered in Lower California inside the Gulf.

Gov. Bigler was spoken of for the Senatorship. From Washington Territory it is stated that the treaties with various tribes of Indians were making favorable progress.

### The Tornado.

Chicago, May 24th—7 P. M.

Later accounts from the scene of the tornado still have an incredible and munchausen-like appearance. It is expected that there is more loss of life yet to be discovered.

There have doubtless been exaggerations in the reports brought to this city, but it is impossible to learn the exact extent of the damage.

### ALBANY MARKET

Albany, 24—7 P M

Flour—Sales 1700 bbls 10,25a10,50 for common to straight state—10 37a10 62 common to good western. Corn lower—early in day 1,10½ for western mixed. Subsequently sales 1,09a1,10 and 1 08 closing heavy. Sales 35 000 bus western mixed for all July, at 1,02a1,02½.

### BUFFALO MARKET.

Buffalo, May 24—6 P. M.

Flour this P M in good demand and unchanged. Sales 2,000 bbls at 9,25a9,50 for common to good Wis.—8,96½a10,00 for choice to extra Iowa.

Wheat—demand also good and market steady. Sales 33,000 bus at 190 for upper lake Spring. Corn continues active—sales 15 000 bushels at 95a96½, the greater part at inside prices—closing with holders above views of buyers.

No sales of Oats—Pork in good supply and demanded—Sales 1500 bbls.

Canal freights 11a11½ for corn, and 15 for wheat to New York.

### NEW YORK MARKET.

New York, May 24th.

Flour and corn; with good demand for pretty much all descriptions of flour and only very moderate receipts—prices have improved about 12½-2c per bbl. Sales to-day 7500 bbls at 10,37a10,62 for common to choice state and mixed to fancy western including Wis. Mich. Ohio and Canadian, 11,25a13 for extra Genesee. Market closing buoyant with but little if any parcels to order to be had at the price. Included are 2500 bbls common state at $9, part delivered the last 15 days and remainder in all July. Closing with more buyers than sellers at these figures. An advance was expected by the America, but the fact that there has been no advance in Liverpool does not seem to have the least effect here. After the news by the America was published no one showed the least anxiety to realize.

Grain—supply of wheat appears to have been suddenly cut off as there was scarcely a sample exhibited to-day. Parcels would have brought a shade better prices—a sale of 700 bush strictly prime Genesee was made at 2,80.

Rye—no sales of importance small transactions at 1,60a1,67.

Corn—receipts of western mixed large—the greater portion not in good order, consequently shipping will not touch it. Distillers do not want it, owing to low prices of Whiskey and Eastern dealers are afraid of it. Market declined 2a3 cents per bushel. Sales 43 000 bus at 1,12a1,15 for western mixed, closing at about 1,12½a1 13 for good parcels.

Oats fair demand at 71a76 for state and western.

Whiskey shade firmer—sales 3500 bbls Ohio and Prison 38a38¾; chiefly 38 1-2.

Provisions—pork a shade firmer. Sales 7000 bbls at 16,75 for old mess, 17,75a17 87 for new do, 14,50 for new to prime, 16 for western prime.

Beef market continues firmer—supply light—Receipts scarcely equal to demand. Sales 500 bbls 10a12 50 for country mess, 8,80a9 25 for do prime, 13,75 for Vermont, 15,25 for extra.

Beef hams—without important change—sales 11,00 bbls at 16a29 for common to prime.

Cut meats—Market favor sellers—Sales 200 packages 9⅜a9¾ for hams, 7⅜a7⅝ for shoulders—Sales 10,000 bbls. Bulk sides at 8¾—Lard active—part for export—Sales 900 bbls and tierces 10⅝a10¾ for fair to prime.

Sebastopol dates come to May 10. Canrobert gave notice of his intention to extend his movements on the arrival of reinforcements. 4000 Sardinian troops had arrived. The Allies' advances are represented as slow but sure. The Russians had made two short desperate sorties, but were repulsed with severe loss.

Resolutions deploring the failure of Negotiations and declaring that the proposals of Russia were such as to afford a prospect for peace were offered in the House by Earl Grey, and in the Commons Milner Gibson, on declaration for a complete neutrality on the part of Austria, was looked for.

## PATENT MEDICINES.

### PROCLAMATION
### To the Sick.

BRING hither the pale, the halt, the lame and the blind. If you would have them healed of their maladies, [illegible]. We boldly and fearlessly assert that the Mustang Liniment will positively cure Rheumatism. Let every one who is afflicted with that most painful complaint try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, sprains, or [illegible] symptoms fade away as if touched with the magician's wand. Its application to Burns or Scalds are alike "[illegible] on troubled waters." The tempest of pain and agony is [illegible] stilled, and the patient is lulled to quiet and peaceful slumbers. "There is a balm for every wound" and that balm is the Mustang Liniment. Every storekeeper [illegible] sells medicine keeps it for sale. "Hold your horses" and if [illegible] are galled, or sprained, use the Mustang Liniment. In a word it is

A BALM FOR EVERY WOUND, A CURE FOR

Rheumatism, Scald Head, Gout, Neuralgia, Caked Breast, Stiff Joints, Lumbago, Sore Nipples, Bruises, Sprains, Sore Shins, Cuts, Salt Rheum, Burns, Chafes, [illegible], Galls, Piles, Ulcers, Spavin, Sprain, Ring-Bone, Sweeny, Poll Evil, Fistulas, Sores, Hard Lumps or Tumors, and all kinds of

Pains or Inflammation in Man or Beast.

RELIABLE EVIDENCE.

Bloomfield, Mo., January 1?, 18[illegible]

Messrs A G Bragg & Co.,

Dear Sirs, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in all cases of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang Liniment with raw cotton, and no bandage else, and in ten days he was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling hot tallow and it had the same good effect.

Yours, truly, D B MILLER, County Judge

Russell County, Ala Feb 1, 18[illegible]

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The inflammation had been so extensive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life appeared to be to have it cut off. As her general health was very delicate, the Physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm, and might prevent mortification. To the astonishment of the doctor and myself, her pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is [illegible] well and sound. One of my boys was severely burned, the skin was entirely taken off from the [illegible] to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief, but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILLI[illegible]

NOTHING NEW—BUT EVEN TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it has been more uniformly successful in healing wounds, bruises, burns, cuts, and all manner of sores, as well as [illegible] erysipelas, pains or lameness in the back, side or joints, [illegible] rheumatism, any other remedy. These are facts that millions of persons know from having used it. We say millions, and base the assertion on the fact that over sixteen millions of bottles have been used and never heard a complaint against it, where it has been used as directed and used thoroughly. We deem it necessary occasionally to remind the people of these facts to induce those to try it who may ever have had an occasion to [illegible]. One trial is all we ask the most incredulous—and such a trial will only cost 25 cents.

PRICES—It is put up in bottles of full size and retailed at 25 cents, 50 cents, and $1 per bottle. The fifty cent and one dollar bottles contain three times as much as the twenty five cent size in proportion to their cost. The large bottles are the cheapest.

### RHODES'
### FEVER AND AGUE CURE,
OR,
Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats and all other forms of disease which have a common origin in Marsh or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists—North, South, East or West,—and will everywhere yield to the newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICAL SCIENCE.

This specific is so harmless that it may be taken by persons of every age sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler, even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade.

Trade circulars forwarded on application and the articles will be consigned on liberal terms to responsible parties in every section of the country.

*For the Relief and Cure of Suffering Female[s]*

IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended usually called

of these are PROLAPSUS UTERI or Falling of the Womb, FLUOR ALBUS or Whites,—CHRONIC INFLAMMATION AND ULCERATION OF THE WOMB INCIDENTAL HEMORRHAGE or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhoea, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruations, and diseases of irritation of the female organs.

EVARTS'
**Patent Shingle Mill.**

**EVARTS & BUTLER,**
PROPRIETORS AND MANUFACTURERS,
CHICAGO, ILLINOIS

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the single width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship easily worked, and not liable to get out of order.

**Lots in Sherman's Addition**

THE FOLLOWING LOTS IN SHERMAN'S ADDITION, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Lots has been removed by a decision of the United States Court; there is therefore will be no more question about the title.

Now for another fact.—A more beautiful prospect cannot be found than Sherman's Addition. You have a full view of the City and Lake, for health it is not to be surpassed, the soil is rich, and I see no reason why property in Sherman's Addition should not command as good prices as in the First Ward, and it will if only a few individuals will commence and build fine houses. I, for one, will sell my present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of our late friend HALLIDAY.

**QUEEN'S PATENT**
**PORTABLE**
**FORGE**
AND
**BELLOWS!**

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for *emigration to new countries, ever offers to the public, and are* successfully used by most of the steamers, and also by the U S Army and Navy. For sale by

## PATENT MEDICINES.

**AYER'S PILLS.**

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct A A HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the—

Hon EDWARD EVERETT, Senator of the United States.

ROBERT C WINTHROP, Ex Speaker of the House of Representatives

ABBOTT LAWRENCE, Minister Plen. to England

JOHN B FITZPATRICK, Catholic Bishop of Boston, also

Dr J R CHILTON, Practical Chemist of New York City, endorsed by

Hon W L MARCY, Secretary of State

WM B ASTOR, the richest man in America

S LELAND & Co, Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.—They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity and combined together in such a manner as to ensure the best results. This system of composition for medicines, has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

**HOLLOWAY'S OINTMENT**

*Citizens of the Union.—*

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you and already, it has obtained more celebrity than any other Medicine in so short a period.
THOMAS HOLLOWAY,

CURE OF SORE LEGS, AFTER 9 YEARS STANDING.

Mr W J Langley, of Huntsville, Yadkin, North Carolina suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured; but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr R. DURANT, of New Orleans, addressed Professor Holloway as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her, she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs Wright & Co., of Chartres st., New Orleans. I send this from Hotel des Princes, Paris, although I had written it at New Orleans, before we finally left not knowing your address at New York.
Nov 9th, 1852 (Signed) R DURANT

The Pills should be used conjointly with the Ointment in most of the following cases:—

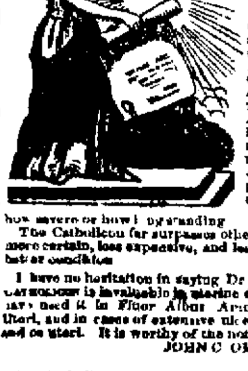
## CELEBRATED CATHOLICON,

*For the Relief and Cure of Suffering Females*



IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended usually called

*Female Complaints*

Of these are Prolapsus Uteri or Falling of the Womb, Fluor Albus or Whites, Chronic Inflammation and Ulceration of the Womb, Incidental Hemorrhage or Flooding, Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhoea, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D.,

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

Truly Yours,

WM. LAIRD HAZLETT, M. D.,

July 8th, 1854 New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use, together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

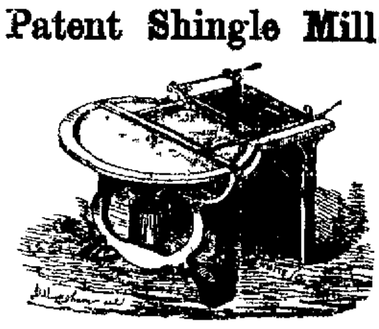
## Patent Shingle Mill.



EVARTS & BUTLER,

*PROPRIETORS AND MANUFACTURERS,*

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution, and the flexibility of the single width wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market *seventy five cents per thousand higher* than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship easily worked, and not liable to get out of order.

## QUEEN'S PATENT

PORTABLE

FORGE

AND

BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers' Dentists and Chemists.

It is compact—the Twier iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and ashes, as it will where there is but one opening. For out door work and for safety in doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy. For sale by

## PATENT MEDICINES.

## AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston, also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford.—They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies extracted by Chemical process in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines, has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mysteries. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

## A CURE FOR ALL!!

## HOLLOWAY'S OINTMENT

*Citizens of the Union.—*

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known amongst you and already, it has obtained more celebrity than any other Medicine in so short period. THOMAS HOLLOWAY,

CURE OF SORE LEGS, AFTER 9 YEARS STANDING

Mr. W. J. Langley, of Huntsville, Yadkin, North Caroline suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured; but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her, she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes, Paris, although I had written it at New Orleans, before we finally left not knowing your address at New York.

Nov. 9th, 1853 (Signed) R. DURANT
